Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 53883-471.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 08/06/2019
- Alternate CSF #1 dated 8/6/2019
- Alternate CSF #2 dated 8/6/2019
- Alternate CSF #3 dated 8/6/2019

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

User Safety Recommendations

Users should:

- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

DO NOT apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. **DO NOT** clean equipment or dispose of equipment washwaters in a manner that will contaminate water resources or arable land. Glufosinate ammonium and its degradates have those properties normally associated with pesticides that have been detected in groundwater. Use of this product in areas with coarse soils and high water tables may result in groundwater contamination.

HOW IT WORKS

CSI 19-313F Glufosinate 0.36% [This product] is a contact herbicide primarily absorbed through the leaves and other green parts so it only kills only what you spray. CSI 19-313F Glufosinate 0.36% [This product] starts working as soon as it contacts the plant and weeds usually turn yellow and wilt within 3-5 days with complete kill in 1 to 2 weeks.

[ALTERNATE TEXT] CSI 19-313F Glufosinate 0.36% [This product] is primarily absorbed through the leaves and other green parts so it only kills only what you spray.

Any of this product that does not get absorbed by plants will be deactivated after it hits the soil. Weeds usually turn yellow and wilt within 3-5 days with complete kill in 1 to 2 weeks.

SUB-LABEL A: Traditional Layout

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Shake well before use.

USE PRECAUTIONS: Read entire label. Application of this product will kill almost all plants contacted. **DO NOT** allow this product to contact leaves, green stems, or exposed roots of desirable lawn grasses, plants, shrubs, or trees – they will be damaged or killed. This product does not interfere with root growth or seed germination of untreated desirable plants. While it is possible to reseed or replant immediately after the spray has dried, please wait at least 4 days after application before reseeding or replanting to ensure that this product has had sufficient time to kill the weeds.

Spray when air is calm to avoid spray drift onto desirable plants. If spray contacts desirable foliage, immediately rinse the foliage with water. Use cardboard or plastic to shield desirable plants from spray drift. To avoid tracking product into other areas of desirable vegetation, keep people and pets off of the treated areas until the spray has dried.

WHERE TO USE

Use outdoors on patios, paths, walkways, driveways, sidewalks, mulch, and around fences and buildings; in and around flower beds and gardens, and around ornamental shrubs and trees; and to edge landscape areas.

HOW TO SPRAY

- Apply as a spot or directed spray application to weeds or grasses.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet [piece] of cardboard or plastic.
- If desirable plants are accidentally sprayed, rinse off immediately with water [or cut off treated area].
- Apply as a spot or directed spray application to treat spots in 1,000 sq. ft.

WHEN TO APPLY

Apply when weeds are actively growing. [Use anytime weeds and grasses are actively growing.] For best [fastest visual] results, apply during warm, sunny weather [above 60° F] [to accelerate systemic movement from foliage to roots.]

Apply when air is calm to prevent drift to desirable plants.

RAINPROOF Protection: Rain or watering 4 hours after application will NOT wash away effectiveness. [Apply when weeds are small and before seeds form. Established (Hard to kill) weeds may require a repeat application.]

APPLICATION RESTRICTIONS:

- **DO NOT** apply this product in a way that will contact any person or pet, either directly or through drift.
- **DO NOT** spray plants or grasses you like because they will die. Not specified for spot weed control in lawns since this product kills lawn grasses.
- Only the person applying this product may be in the area during application.
- **DO NOT** (mix, store or) apply with (in) a galvanized or unlined steel (except stainless steel) sprayer, or apply through any irrigation system.
- People and pets must not enter treated areas until spray has dried.
- In the State of New York only: Not for use in Nassau and Suffolk Counties.
- **DO NOT** apply more than 128 fl. oz. (0.03 lbs Glufosinate-ammonium) per 1000 ft² in a single application.

- **DO NOT** apply more than 3 gallons (0.09 Glufosinate-ammonium) per 1,000 ft² per year.
- **DO NOT** apply more than 3 times per year.
- **DO NOT** apply more than once every 28 days.

ADDITIONAL USES:

To Kill Vines

- If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet (piece) of cardboard or plastic.

To Kill Kudzu

- For best results, apply in mid to late summer when vines are mature and actively growing.

To Kill Wild Blackberry

- Spray anytime plants are actively growing.
- Dead canes need to be cut down and removed.
- Reapplication is often required to kill deeply rooted plants.

To Kill Poison Ivy & Poison Oak

- Contact with these plants anytime of the year can cause an allergic reaction.
- Spray anytime plants are actively growing, but at least 4 weeks before the first killing frost in the fall.
- Reapply, if new growth appears.
- Handle dead plants with rubber gloves.
- Dispose of plants and rubber gloves in tightly sealed garbage bags.
